Portfolio: https://yuvrajpk.github.io/Portfolio/

PROFESSIONAL SUMMARY

Results-driven **Cloud & DevOps Engineer** with expertise in **AWS, CI/CD automation, and infrastructure as code**. Skilled in designing scalable cloud architectures, automating deployments, and implementing monitoring solutions. Experienced in working as a **Data Annotator**, contributing to the preparation and labeling of datasets that support AI/ML-driven applications, ensuring data quality and accuracy. Adept at collaborating with cross-functional teams to deliver optimized, secure, and data-driven cloud solutions.

- **Cloud Platforms:** AWS (EC2, Lambda, Route 53, VPC, CloudFront, CloudTrail, CloudWatch, CloudFormation, Auto Scaling, S3, Rekognition, IAM, EKS)
- **Databases:** RDS, DynamoDB
- **DevOps Tools:** Jenkins, Ansible, Docker, Kubernetes, Terraform
- **Scripting:** Bash, Shell
- **Version Control:** Git, GitHub
- **Languages:** Python
- **Operating System:** Linux

CERTIFICATIONS

- AWS Solutions Architect – Associate
- HashiCorp Certified: Terraform Associate (003)
- AWS Cloud Quest – Cloud Practitioner (Badge)
- Cloud Computing Architecture
- DevOps Engineer Certification

PROJECTS

Mass Emailing using AWS Lambda | **Jun 2024 – Jul 2024**

- Designed and deployed a cost-efficient, serverless mass emailing platform using AWS Lambda and SES.
- Integrated Amazon S3 for storage and CloudWatch for monitoring, ensuring scalable audience reach

VelocityOps: CI/CD Pipeline for Microservices on AWS | **Nov 2024 – Jan 2025**

- Developed a CI/CD pipeline for microservices using Docker, Jenkins, Kubernetes, and Terraform.
- Automated infrastructure provisioning and integrated Jenkins for seamless, scalable cloud deployments.

Image Labels Generator using Amazon Rekonition | **Mar 2025 – Jul 2025**

- Mass emailing with AWS Lambda and Amazon SES allows to send emails at scale efficiently and Lambda triggers, such as CloudWatch schedules, execute functions that send emails via SES.
- It's a cost-effective, serverless solution, ideal for large-scale email campaigns where you pay only for the resources and time used.

PROFESSIONAL EXPERIENCE

Data Annotator | **HAN Digital Solution Pvt. Ltd., Bangalore**

Dec 2024 – Aug 2025

- Contributed to Blueprint Creation (BPC) in AWS SageMaker by gathering ML requirements, analysing model workflows, and documenting scalable AI/ML solutions.
- Implemented Blueprint Response (BPR) in AWS SageMaker, deploying ML models, executing segmentation tasks, validating predictions, and annotating datasets to enhance automation accuracy and model performance.

EDUCATION

Bachelor of Engineering – Computer Science
- St Joseph Engineering College, Mangalore | **Nov 2020 – May 2024**

Pre-University – PCMC
- Sri Chaitanya PU College, Mangalore | **May 2018 – Jul 2020**

SSLC (10th Standard)
- Kendriya Vidyalaya No. 1, Mangalore | **Apr 2017 – May 2018**
